Job Title: Railcar Loader (Transloader)
Department: Texas Frac
Location: Fort Worth, TX
Reports To: Transload Operations Manager
Revision Date: 10/28/20

## Position Overview

To load railcars, place railcars for loading and release, and maintain an organized rail yard.

## Essential Job Functions

- Inspect cars before loading, including covers and bottom gates.
- Open the bottom gate and clean sand from the car from a previous load.
- Pre-shift inspection of mobile equipment, including grease and fuel.
- Load railcars using mobile conveyors. This includes helping drivers unload onto conveyor.
- Close and seal railcars after loading. Operator must make sure there are no visible leaks.
- Switch cars in and out of rail yard via locomotive.
- Clean and maintain tracks and switches, removing snow and ice as necessary.
- Communicate with the Taylor Frac plant for sand grades and weights.
- Maintain and submit paperwork as necessary.

## Other Skills/Abilities

- Communication skills via verbal, written, and electronic delivery will be required.

\* The above list is not an all-inclusive list of duties and/or requirements. You will be expected to perform various tasks as required by the company and/or federal and state regulation. As business objectives changes, so too may your duties.
